www.highstreetconsulting.com

Are you interested in leveraging your *transportation planning, technical writing and analytical skills* to help improve transportation decision making? If so, High Street could be the place for you! Join our team and play a key role in helping our transportation agency clients prepare for the future.

POSITION OVERVIEW

High Street is a growing 20+ person transportation planning, policy, and analytics consulting firm seeking a transportation technical planning expert for a full-time position that requires a combination of analytical, project management, and writing skills. The new hire will support transportation planning, programming, and policy work for a range of federal, state, and local/regional transportation agencies, but will primarily work with the Texas Department of Transportation at their offices in Austin, Texas.

RESPONSIBILITIES

The right candidate must have a strong attention to detail. The applicant must be self-motivated and comfortable executing tasks independently. Duties will include:

- Serving as firm's on-site liaison between client and project teams;
- Thoughtfully and effectively communicating in writing, presentation materials, and conversation with client technical and policy personnel;
- Evaluating performance impacts of transportation investments;
- Providing expertise on statewide transportation planning and programming activities
- Writing technical memorandum that document research findings and analytical methodologies
- Using a GIS to spatially join and process transportation data;
- Implementing multiple objective decision analysis;

REQUIREMENTS

- 5 years of work experience AND master's degree in transportation planning, engineering, public policy, or similar discipline OR PhD in transportation planning or similar discipline
- Must possess permanent U.S. work authorization
- Experience evaluating transportation project impacts with respect to but not limited to safety, mobility, and asset preservation performance measures
- Flexible problem solver
- Project a professional image through mature communication and interpersonal skills
- Proven track record prioritizing workload to meet deadlines and work objectives
- Strong problem solving and troubleshooting skills
- Demonstrated ability to write clearly and succinctly
- Experience visualizing data in charts, graphs, maps and data dashboards

PREFERRED QUALIFICATIONS

- Transportation asset management and transportation planning experience
- R or Python and GIS scripting skills (required)
- Demonstrated technical writing capability

LOCATION & TRAVEL

This position is in Austin, Texas and the applicant must be located or willing to locate to there. An office will be provided on-site at the Texas Department of Transportation offices.

COMPENSATION & BENEFITS

High Street provides a competitive compensation and benefits package including base salary, opportunity for performance-based bonus, and 401k program. Please send a resume and cover letter or cover email to careers@highstreetconsulting.com.
